**FILE ACTION TO

FOR NEW BRIDGE****Condemnation Proceedings

Morrisville****TO ACQUIRE TITLES****Properties To Be Razed To
Make Room For The
Approaches**

MORRISVILLE, Apr. 8 — A condemnation action has been filed giving the Delaware River Joint Bridge Commission power to acquire titles to properties in the path of the approaches to the new bridge across the river here.

The commission's power to negotiate for purchase of the properties was acquired in Harrisburg when Governor James H. Duff and Ray F. Smock, secretary of highways affixed their signatures to Bridge Commission right-of-way plans showing the location of properties to be acquired.

The legal effect of the signatures is to pass title to all properties involved in the plan at once to the Delaware River Joint Toll Bridge Commission.

It is the hope of the entire Commission, according to Alexander R. Miller, that negotiations will result in a manner that is amicable, fair and just to all.

The properties involved in the transactions cover the north side of Moreau Street and west side of Pennsylvania Avenue between the plant of the Vulcanized Rubber Company and Green Street.

The new approach will connect with the proposed bridge over the Delaware River and the proposed highway to be constructed by the Pennsylvania State Highway Department. The proposed bridge and approaches will form a link connecting with the Trenton Freeway which is now under construction.

The condemnation plan also has been recorded in the recorder of deeds office in Doylestown.

SATURDAY, APRIL 8, 1950

EASTER 1950

"And lo, I am with you always, even unto the end of the world." These words, spoken by Jesus, hold a special meaning on an Easter Day while the nations, though at peace, are still in turmoil. They are a call for men and women to renew the faith that is in them. They are the anchor which will keep the ship of the world from drifting aimlessly over the waters.

In a very literal sense they represent, too, the permanence and the security which peoples everywhere are seeking today. When Jesus told his followers that he would be with them always, he meant to say that the teachings they had had from him and the example of sacrifice and devotion he had given them would be forever as a light in the darkness.

Now, as never before, we need that light. We need it to lead men and nations from the paths of selfishness so that the peace of the world may be made secure.

In city and hamlet the anniversary of the Resurrection will be celebrated as millions gather to renew their faith in Him who came to redeem the world. Through that renewal will come the hope eternal in the human breast that man will rise above his earthly environment and attain the end for which he was created. In fervent prayers and hymns of praise he again will glimpse the glories yet to come.

The Christian faith has been the one enduring thing in the hearts of men. Since that day Christ emerged from the tomb, to fulfill a divine prophecy, dynasties have crumbled, the most ambitious of human efforts have come to naught. As century followed century nothing has survived except hope for the redemption of a world made gross by the sins of mankind. That hope remains today, undimmed, as it will remain until the day of fulfillment.

LIVING LONGER

U. S. Public Health Service has announced this average American was living to the ripe old age of 67.2 years as of 1948. He may be doing better than that by now, thanks to discoveries made by medical science in behalf of human health. Women are living longer than men, the figures being 71 and 66.5 respectively.

These are all new records and are remarkable in view of the alleged increasing tension of life and the inroads of diseases of the heart.

Work and worry are said to be man's greatest enemies so far as health is concerned. Work in itself can hardly be harmful but combined with worry the result is often disastrous. The nervous system is affected and bodily processes thrown out of kilter.

Although man is living faster he is also living longer, due to the benefits of medical science, improved sanitation and mastery over diseases which once took heavy toll. Whether he is having more fun out of life must be left for another essay.

2 VETERANS WILL BATTLE FOR LEAD, LANGHORNE TRACK

LANGHORNE, Apr. 8 — Two veterans of the Southern circuit, Red Byron of Atlanta and Tim Flock of Winston-Salem, N. C., will resume their battle for the leadership of the Grand National Circuit Sunday, April 16, in the 150-mile speed classic for newmodel automobiles over the famous Langhorne speedway in Bill France's first race program of the year for this mile track.

At the present time, the red-headed demon from Atlanta leads the parade with 315 points for the season, just a mere two and one-half points ahead of young Flock.

Tim moved up to a threatening position last Sunday by winning the 200-lap, 150-mile Grand National Circuit race at Charlotte, N. C., as some 13,000 spectators witnessed one of the most thrilling races of the season. Tim was driving a 1949 Lincoln sedan, the same car which Harold Kite of East Point, Ga. drove to victory in the 200-mile race at Daytona Beach, Fla., February 5. Byron, who finished second at Daytona Beach, scored a fourth place at Charlotte with his 1950 Oldsmobile 88 to take a slight lead in the championship point standings of the National Association for Stock Car Auto Racing, which organization will sanction the Langhorne race.

Trailing these two stars in the NASCAR point standings for new model cars is Bob Flock, another Atlanta driver, with 272.5 points for the season. Bob, driving a 1949 Olds 88, finished second at Charlotte, trailed by Clyde Minter of Martinsville, Va., in a 1950 Mercury. Minter is also slated to compete in the race at Langhorne.
